Hello Colleagues,

Thank you again for attending last week's WIIN 2107 discussion. I think we all learned a lot and gained valuable insight into the progress and approaches of the various grant recipients.

As a follow up, I am emailing all the participants so you can have each other's email addresses going forward. I will also reach out in the next month or so to set up a second meeting to take place in the fall. In the meantime, we will continue working with all of you on the next WIIN allotments. Please contact us if you have any questions on supplemental application materials or if you need support in any way.

I'm also going to share the link to EPA's 3Ts website. Tony mentioned that it would be helpful if EPA developed a standard set of outreach materials. These resources might not cover everything, but they should be a good place to get started while additional materials are developed. I will include a few attachments that may be especially relevant.
<https://www.epa.gov/ground-water-and-drinking-water/3ts-reducing-lead-drinking-water>

I am looking forward to continuing these conversations and working together in the future.

Ruby Stanmyer (she/her)
